

JOZSEF KISMARCZI

SOFTWARE DEVELOPER

ABOUT

My name is József Kismarczi, young full stack developer. My general capabilities in a Full-Stack Development(3 years experience): Implementing web design and development principles to build stable software(C#) Bringing mock-ups to life using HTML5, CSS3, JavaScript, TypeScript, jQuery, Angular. Communicating technical issues to the developer team in an understandable manner. Building websites and apps that are responsive and usable. Monitoring website performance and rectifying front-end-related issues. Innovative ideas and proof of concepts according to project requirements. Maintaining an organized workflow using a version management tool (like Git,TFS). Testing to identify bugs and technical issues before and after deploying. Documenting bug reports, tickets, and any code changes(Jira).
